Summary

Product Manager with 2+ years building **AI/ML and platform products** across enterprise B2B SaaS in document intelligence, infrastructure orchestration, and data extraction. Owns products end to end from **discovery through GTM**, driving **30% release velocity gains**, **40% faster onboarding**, and **100% stakeholder acceptance** on platform roadmaps. Specializes in **LLM powered product development**, Human in the Loop (HITL) workflows, data driven prioritization, and cross functional delivery.

Experience

Perfios.ai, Bengaluru *AI-powered Financial Document Intelligence Platform* 10/2025 – Present
Associate Product Manager II (Platform Team: DIB, PAE, Perflo)

- Onboarded multiple use cases including **Asset Reconstruction Company (ARC)** and loan companies onto the classification and extraction platform, owning domain research, schema configuration, and live demos to **12 enterprise prospects**, advancing **9 into the active sales pipeline** and **3 to production**.
- Led **prompt engineering** and LLM configuration for **20+ enterprise clients**, reducing client go live setup time by **30%** and accelerating time to value across onboarding cycles.
- Architected **BRE policy frameworks** and end to end customer journeys across use cases (checklist validation, bank onboarding and KYC, application filling and signing), delivering **4 cases end to end** spanning extraction, fraud, and validation logic plus UI, and **reducing manual review effort by 50%** for credit operations teams.
- Improved the **UI/UX of the extraction platform** from research through design to shipped release, and optimized **HITL workflows** for the Mediclaim agent by diagnosing TAT bottlenecks with UX, projected to cut processing TAT by 20%.

Facets.cloud, Bengaluru *B2B SaaS AI Infrastructure Orchestration platform* 06/2024 - 10/2025
Product Manager (Previously APM & Intern)

- Led delivery of **35+ features** including Dynamic Launch Wizard, Parallel Releases, Maintenance Windows, and Blue/Green and Canary Deployments, driving a **30% improvement in release velocity** and reducing deployment conflicts across enterprise clients.
- Owned the **Facets Module MCP Server** for AI driven infrastructure workflows, enabling metadata based Terraform module generation and validation via LLM integration and **cutting module setup time by 40%** for platform engineering teams.
- Integrated **Mixpanel and Hotjar** across key product surfaces and built retention and funnel dashboards to surface UX bottlenecks, **reducing workflow abandonment by 20% and onboarding time by 40%**.
- Built a **customer intelligence framework** using NPS surveys, user interviews, and support ticket analysis to inform roadmap prioritization, **boosting retention by 15% and reducing churn by 10%**.
- Owned the **product roadmap** and PRDs end to end using RICE and MoSCoW prioritization from discovery to release, achieving a **95% on time delivery rate** across all initiatives.

Projects

Family OS | *Household Management Platform · Figma, PRD, User Research* | [🌐 Live Site](#) 2026

- Defined and prioritized a **22 feature** product roadmap across P0 to P2 tiers, spanning finance, health, and asset management for a **\$13.4B TAM**.
- Authored an end to end business plan and PRD covering MVP scope, a 6 month dev timeline, a \$454K budget, and a **deployed live prototype**.
